# DALAL HIMANSHU

## Summary

Immediate Joiner, Looking for better opportunity as a **Software Quality Analyst** with **3.3 years** of relevant experience in Manual Testing, Core Java, Automation Testing, Selenium, Maven, TestNG, BDD Cucumber framework, functional Testing, Jira and knowledge of SDLC & STLC.

## Professional Synopsis

❖ Extensive experience in executing **Manual, Functional, Smoke, Regression**, and **UI Testing** to validate application behaviour and ensure software reliability.

❖ Solid understanding of **Software Development Life Cycle (SDLC)**, **Software Testing Life Cycle (STLC)**, **Defect Life Cycle**, and **Agile/Scrum methodologies**.

❖ Proficient in **Selenium WebDriver with Java** for building robust and scalable automation test scripts.

❖ Expertise in creating automation frameworks using **Page Object Model (POM)** and **Behaviour Driven Development (BDD)** with **Cucumber**.

❖ Familiar with **API automation** using **RestAssured** library and performing **REST API testing** via **Postman**, ensuring back-end service reliability.

❖ Conducted **cross-browser testing** and detailed **UI validations** using Selenium to enhance user experience across multiple platforms.

❖ Familiar with **Jenkins** for executing automated test pipelines in a CI/CD environment.

❖ Effectively used **JIRA** for defect tracking, and test case management.

❖ Maintained consistent communication with stakeholders to ensure alignment with project goals and timely issue resolution.

## Professional Work Experience

Working as a **Software Quality Analytics** in Polestar Analytics, Noida India from Aug 2022 to till date.

# Core Competencies

- ❖ **Operating System** **: Windows**
- ❖ **Programming Language** **: Core Java**
- ❖ **Test Management Tool** **: Jira, ScrumDo**
- ❖ **Web Service Testing Tools** **: Postman, RestAssured**
- ❖ **Automation Testing Tools** **: Selenium WebDriver(4.10)**
- ❖ **Domain Knowledge** **: E-commerce**
- ❖ **Version Control System** **: Git**
- ❖ **Web Technologies** **: HTML**
- ❖ **Agile Methodologies** **: Scrum**
- ❖ **Testing Skills** **: Manual, Automation, Web Service**

# Education

Bachelor of Technology (BTech) from Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur, Maharashtra, India from 2018 to 2021.

# Experience

**Polestar Analytics**, **Noida** Aug 2022 to till date
**Software Quality Analyst**
**Domain : E-commerce**

**Roles and Responsibilities :**

- ❖ Analysed user stories, functional specifications, and business requirements to understand application flow for both customer-facing (Hinges Designs) and admin-side (Hinges Admin Dashboard) modules.
- ❖ Designed effective test document tailored for E-commerce workflows like product listing, cart management, checkout, user login/signup, and admin functionalities (order tracking, product management, analytics).
- ❖ Planned test data and environment setup for functional and regression testing.
- ❖ Developed and maintained automated test scripts using **Selenium WebDriver with Java** for UI regression suites across both user and admin modules.
- ❖ Implemented Page Object Model (POM) to build reusable and scalable test frameworks.
- ❖ Integrated test suites with **TestNG** for reporting and test execution control.
- ❖ Performed functional, UI, cross-browser, and exploratory testing of frontend and backend features.
- ❖ Logged and tracked defects using **JIRA**, working closely with developers to ensure timely resolution.
- ❖ Participated in daily stand-ups and sprint planning meetings to provide QA status and support Agile development cycles.
- ❖ Validated backend APIs using tools like **Postman**, ensuring proper response codes, data formats, and integration with frontend modules.

- ❖ Collaborated with cross-functional teams, including developers and business analyst to ensure effective communication and resolution of issues.
- ❖ Identified, logged and tracked software defects using **JIRA**, ensuring their timely resolution.
- ❖ Participated in **daily stand-up meetings** and provided updates on testing progress and any blockers.
- ❖ Contributes to test planning and strategy discussions, providing valuable input for improving test coverage and efficiency.
- ❖ Automated test cases using **Java** and **Selenium WebDriver**, reducing manual effort and improving overall testing productivity.
- ❖ Conducted **API testing** using **Postman Tool** to validate RESTful APIs and ensure proper integration between systems.
- ❖ Documented test results, defects and other relevant information in test reports for future reference.
- ❖ Actively participated in **sprint planning, daily standup call** and **retrospective meetings**, contributing to process improvement and team collaboration.
